Re: **PG&E’s 2023 Annual Report on Compliance, Revision 2 (R2), for the 2023-2025 Wildfire Mitigation Plan (WMP) (Docket #: 2023-EC ARC)**

Dear Mr. Mohammed:

PG&E strives to provide accurate data in compliance with Office of Energy Safety’s (Energy Safety) Compliance Guidelines (Guidelines). After the submission of our 2023 Annual Report last year, we reviewed the data and found some minor inconsistencies in our Finance table. We are correcting these inconsistencies in this submission.

Below is a summary of the changes in this revision:

Revision to Attachment Table 4 – Planned Budget vs Actual Expenditure

We have revised the table to show the Expense summary and Capital summary in different tabs. The revision is aligned to the final response to Data Request SPD_WSPS_PG&E_2024_011 that was submitted to the Safety Policy Division of the California Public Utility Commission on February 14, 2025. This information was also updated in our 2024 Q4 QDR Table 11.

We appreciate Energy Safety’s consideration of this revision to our 2023 Annual Report. Please do not hesitate to reach out should you need any clarifications or additional materials.

Sincerely, _____/S/_____

Jay Leyno
