<b>PG&amp;E File Name:</b>	WMP-Discovery2026-2028_DR_OEIS_013-Q001
<b>Request Date:</b>	June 3, 2025
<b>Requester DR No.:</b>	OEIS-P-WMP_2025-PG&E-013
<b>Requesting Party:</b>	Office of Energy Infrastructure Safety
<b>Requester:</b>	Nathan Poon
<b>Date Sent:</b>	June 6, 2025

**SUBJECT: REGARDING FTI AND TRI COMPONENTS**

**QUESTION 001**

On April 18, 2025, PG&E submitted substantive errata for its 2026-2028 Base WMP. On May 16, 2025, PG&E submitted non-substantive errata for its 2026-2028 Base WMP. In both errata, PG&E made updates to Table 3-3: Summary of Projected WMP Expenditures and stated the updates were made “to refine forecast in alignment with upcoming General Rate Case.” On page 363 of its WMP, PG&E states that it is “in the process of evaluating which component(s) of the [Focused Tree Inspection (FTI) and Tree Removal Inventory (TRI)] scope will be incorporated into the Distribution Routine Patrol Program. In response to Energy Safety’s data request 001, question 09, subpart c, PG&E stated that it “expects to determine which, if any, component(s) of FTI and TRI will be incorporated into the Distribution Routine and/or Hazard Patrol programs by the end of 2025.”

- a. Define “component(s)” as used in this context.
- b. For FTI:
  - i. Provide a list of all components (as defined in a, above) comprising the program.
  - ii. Provide a list of all data fields collected and indicate which data fields are currently collected under Distribution Routine Patrol.
- c. For TRI:
  - i. Provide a list of all components (as defined in a, above) comprising the program.
  - ii. Provide a list of all data fields collected and indicate which data fields are currently collected under Distribution Routine Patrol.

**ANSWER 001**

- a. PG&E's evaluation of the programs entails a holistic assessment of the processes involved in each program, which may include but is not limited to analysis of the relevant data fields to be included in the consolidated programs. For purposes of

responses to subparts (b) and (c) below, we have provided the only data fields that are collected for each program.

b. FTI:

- i. Please see the data fields provided in response subpart (b)(ii) below as these are the components collected during inspection on each program.
- ii. Please refer to attachment "*WMP-Discovery2026-2028\_DR\_OEIS\_013-Q001Atch01.xlsx*" for a list of all data fields collected under FTI and Distribution Routine Patrol. The worksheet labeled "TRA in OneVM" contains the TRAQ questions answered on the FTI program. The worksheet labeled "OneVM" contains the prescription data fields entered by an inspector during Routine Distribution and FTI Inspections. Please note that not all fields are mandatory.

c. TRI:

- i. Please see the data fields provided in response subpart (c)(ii) below as these are the components collected during inspection on each program.
- ii. Please refer to attachment "*WMP-Discovery2026-2028\_DR\_OEIS\_013-Q001Atch01.xlsx*" for a list of all data fields collected under TRI and Distribution Routine Patrol. The worksheets labeled "TRI" and "OneVM" contain the prescription data fields entered by an inspector during TRI and Routine Distribution program inspections respectively. Please note that not all fields are mandatory.
