Docket # 2026-2028-Base-WMPs

RE: Submission of LSPGC's 2026-2028 Wildfire Mitigation Plan – Substantive and Non-Substantive Errata

Dear Deputy Director Marino:

Pursuant to Section 7 of the Energy Safety Policy Division Process Guidelines (Version 1.0, adopted February 21, 2025), LS Power Grid California (LSPGC) hereby submits its substantive and non-substantive errata related to the 2026-2028 Wildfire Mitigation Plan (WMP).

Following the submission of LSPGC's initial Base WMP on July 25, 2025, the company received and responded to data request from Energy Safety. In the course of responding to these requests and conducting internal QA/QC, LSPGC identified areas requiring correction or clarification. These updates include substantive modifications, such as revisions to LSPGC's asset energization timeline and clarification of the work order priority scale, as well as other corrections that affect the technical or evaluative substance of the plan. In addition, non-substantive adjustments have been made to improve clarity, formatting, and internal consistency.

A redlined version of the affected pages of the WMP and the affected tables are attached in accordance with submission protocols, along with the following summary of each change and the rationale for its inclusion.

Section	Page	Edit	Reason	Errata
1	1	Changed "second half" to "Q2" of 2028.	The revised language reflects a more specific and current project schedule based on planning timelines.	Substantive
4.1	17-19	Changed "(Q3-Q4 2028) to "Q2 2028)	The revised language reflects a more specific and current project schedule based on planning timelines.	Substantive
5.2.2.3	31	Corrected normalization range from "1-6" to "0-5" in the description of risk score scaling.	The 1-6 range was a typographical error; "0-5" is the correct scale used consistently throughout the submission and supporting documents.	Non-Substantive
8.1	65	In the Table 8-1, the section and page number of the GD-06 was updated from "8.6;90" to "8.8;94."	The section and page reference for GD-06 in Table 8-1 was updated to reflect its correct location in the current document.	Non-Substantive

Section	Page	Edit	Reason	Errata
8.2.11	67	Changed "LSPGC has established its inaugural PSPS program as part of this WMP" to "LSPGC has initiated efforts toward establishing its inaugural PSPS program as part of this WMP."	The updated language provides a more precise description of LSPGC's ongoing efforts related to PSPS program development, aligning with the current stage of implementation planning.	Substantive
8.4.3	77	Updated inspection frequency for connectors and clamps from "quarterly" to "monthly."	The original reference to "quarterly" was likely a typographical error. The correction aligns with LSPGC's intended inspection schedule and current operational practice.	Substantive

Section	Page	Edit	Reason	Errata
8.4.4	77	Updated inspection frequency for conductors and rigid and strain bus from "quarterly" to "monthly."	The original reference to "quarterly" was likely a typographical error. The correction aligns with LSPGC's intended inspection schedule and current operational practice.	Substantive
8.5.2	85	In LSPGC Table 8-1 QA and QC Procedures, the date for the LSPGC Emergency Operations Plan was updated from 07/02/2024 to 01/01/2025.	The revised date aligns with the version of the procedure submitted as an attachment, ensuring consistency between narrative references and supporting documentation.	Non-Substantive
8.6	90-91	Added mapping between LSPGC's internal 0-3 priority scale and CPUC GO 95 Rule 18 levels.	To enhance transparency and demonstrate regulatory alignment by clearly linking LSPGC's internal prioritization with GO 95 Rule 18 classification levels.	Substantive

Section	Page	Edit	Reason	Errata
9.1	101	In Table 9-2, changed units and targets for VM-05, VM-06 and VM-07 to reflect changes made during annual data submittal process. VM-05 changed from n/a for all quarterly targets except 2028 Q4 which is 100. VM-06 changed from n/a for all quarterly targets except 2028 Q4 which is 100. VM-07 changed from n/a for all quarterly targets except 2028 Q4 which is 20.	Updated to reflect corrections made during review of Annual Data Submittal	Substantive
9.2, 9.2.1.3, 9.2.2.3, 9.2.3.3, 9.3.2, 9.4.2, 9.10.2, Appendix E	102, 103, 104, 105, 106, 108, 115, 219	Updated citation of "NERC FAC-003-4" to "NERC FAC-003-5" in the list of applicable vegetation management standards.	The change reflects the most current version of the NERC FAC-003 standard, ensuring the submission references up-to-date regulatory requirements.	Non-Substantive

Section	Page	Edit	Reason	Errata
9.2.1.6	104	Updated anticipated energization timing from "late 2028" to "Q2 of 2028."	The revised language reflects a more specific and current project schedule based on planning timelines.	Substantive
9.5.2	110	Updated date of the Transmission Vegetation Management Plan from "January 2024" to "March 15, 2024."	The original date was likely a typographical error. The correction aligns with the version submitted as part of the final WMP package.	Non-Substantive
9.6.1	110	Removed extraneous character ("L") from the beginning of the sentence referencing defensible space around transmission substations.	The original text included a typographical error. The correction improves clarity without altering content.	Non-Substantive

Section	Page	Edit	Reason	Errata
9.6.2	111	Updated effective date of the Substation Defensible Space Procedure from "07/01/2025" to "07/21/2025."	The revised date aligns with the version of the procedure submitted as an attachment, ensuring consistency between narrative references and supporting documentation.	Non-Substantive
9.7.2	112	Updated date of the Transmission Vegetation Management Plan from "January 2024" to "March 15, 2024."	The original date was likely a typographical error. The correction aligns with the version submitted as part of the final WMP package.	Non-Substantive
9.11.1	116	Updated energization timeline reference from "mid to late 2028" to "Q2 of 2028."	The revised phrasing provides a more accurate and updated timeline based on current project planning and supports consistency with other sections of the submission.	Substantive

Section	Page	Edit	Reason	Errata
9.11.2	119	Updated energization timeline reference from "mid to late 2028" to "Q2 of 2028."	The revised phrasing provides a more accurate and updated timeline based on current project planning and supports consistency with other sections of the submission.	Substantive
9.11.2	119	Updated effective date of the Substation Defensible Space Procedure from "01/01/2025" to "07/21/2025."	The revised date aligns with the version of the procedure submitted as an attachment, ensuring consistency between narrative references and supporting documentation.	Non-Substantive
10.1	125	Updated energization timeline reference from "mid to late 2028" to "Q2 of 2028."	The revised phrasing provides a more accurate and updated timeline based on current project planning and supports consistency with other sections of the submission.	Substantive

Section	Page	Edit	Reason	Errata
10.1	126	In Table 10-1 Situation Awareness Targets by year, the number for 2028 Total/Status for SAF-01 (Quantitative) was updated from "TBD based on final design" to 72.	The value was finalized to reflect current design progress and to align with the annual WMP tables submitted by LSPGC. This update improves consistency and provides a clear, measurable target.	Yes
10.1	126	In Table 10-1 Situation Awareness Targets by year, the section and page number for SAF-01 (Qualitative) was updated from 10.3;132 to 10.4;139.	This was updated to reflect its correct location in the current document.	Non-Substantive
10.1	127	In Table 10-1 Situation Awareness Targets by year, the page number for SAF-04 (Quantitative) was updated from 140 to 146.	This was updated to reflect its correct location in the current document.	Non-Substantive

Section	Page	Edit	Reason	Errata
10.1	127	In Table 10-1 Situation Awareness Targets by year, the page number for SAF-05 (Qualitative) was updated from 10.5;142 to 10.5.4;146	This was updated to reflect its correct location in the current document.	Non-Substantive
10.3.1	134	Corrected document title from "Operators Training Process Manual" to "Operations Training Process Manual" and updated date from "March 5, 2025" to "March 7, 2025."	The revision aligns the citation with the correct title and date of the attached document submitted with the WMP, ensuring accurate cross-reference.	Non-Substantive
10.5.5	146	Inserted missing period after the word "meteorologist" in the sentence: "...forecasting tools employed by the contracted meteorologist. This will be reevaluated..."	To improve readability and correct typographical oversight.	Non-Substantive

Section	Page	Edit	Reason	Errata
10.5.5	146	Updated energization timeline reference from "Q4 2028" to "Q2 2028."	The revised phrasing provides a more accurate and updated timeline based on current project planning and supports consistency with other sections of the submission.	Substantive
10.6.1	147	Removed parenthetical text "(Tracking ID: ENV-WTH-004)" following the vendor name "StormGeo."	The tracking ID reference was removed to improve clarity, as it did not correspond to any document or identifier provided in the submission.	Non-Substantive
