Re: Notice of Late Submission of Cerritos Electric Utility's Wildfire Mitigation Plan

Dear Wildfire Safety Advisory Board:

As requested by the Advisory Opinion for 2025 Wildfire Mitigation Plans ("Advisory Opinion"), Cerritos Electric Utility ("CEU") is submitting this letter to inform the WSAB of the delayed adoption of its 2025 Wildfire Mitigation Plan ("WMP").

CEU Staff is set to present its 2025 WMP to its City Council on October 27, 2025, and will submit the approved WMP to the Office of Energy Infrastructure Safety Docket immediately thereafter.

CEU does not own any electrical transmission infrastructure. Southern California Edison ("SCE") owns and maintains the transmission infrastructure that delivers electricity to CEU's customers. Consequently, CEU does not own or operate any delivery infrastructure located in or near an area of the state that is designed as "extreme" or "elevated" in the HFTD and, similarly, its service territory is entirely outside of these Tier 2 and Tier 3 HFTD areas. Pursuant to this assessment, CEU will employ the Alternative Reporting path as set forth in the Advisory Opinion.

CEU takes its compliance obligations seriously and appreciates the WSAB's understanding.

Sincerely,

Sergio Huizar  
Utility Analyst
