

Geodatabase Template Changelog

Draft Data Guidelines v4.1

Feature Dataset	Feature Class(es)	Change
Asset Line	Primary Distribution Line	Updated field name from “AssetOHUG” to “AssetLocation”.
Asset Line	Secondary distribution line	Updated field name from “AssetOHUG” to “AssetLocation”.
Asset Line	Transmission line	Updated field name from “AssetOHUG” to “AssetLocation”.
Grid Hardening	Grid hardening line	Updated field name from “AssetOHUG” to “AssetLocation”.
Other Required Data	Other powerline connection	Changed field name from “ConnectionOHUG” to “ConnectionLocation”.
Asset Inspections	Asset inspection line, point, and polygon	Removed “InspectionStatus” field.
Vegetation Inspections	Vegetation inspection line, point, and polygon	Removed “InspectionStatus” field.
Grid Hardening	Grid hardening line/point	Removed field “GhStatus”.
Other Initiative	Other initiative line, point, and polygon	Removed field “OiStatus”.
Vegetation Management Projects	Vegetation management project line, point, and polygon	Removed field “VmpStatus”.
Vegetation Management Projects	Vegetation management project line, point, and polygon	Added new field “VmilD (string, 50)”.
Risk Event	Ignition	Added new field “VegetationContact (string, 30)”.
Risk Event	Unplanned outage	Added new field “VegetationContact (string, 30)”.
Risk Event	Wire down event	Added new field “VegetationContact (string, 30)”.

Feature Dataset	Feature Class(es)	Change
Risk Event	Ignition	Added new field "VegetationContactComment (string, 100)".
Risk Event	Unplanned outage	Added new field "VegetationContactComment (string, 100)".
Risk Event	Wire down event	Added new field "VegetationContactComment (string, 100)".
Grid Hardening	Grid hardening point/line	Added field "WorkOrderFacility (string, 50)".
Grid Hardening	Grid hardening point/line	Added field "WorkOrderPriority (string, 10)".
Grid Hardening	Grid hardening point/line	Added field "WorkOrderResolution (string, 100)".
Grid Hardening	Grid hardening point/line	Added field "UndergroundingFacility (string, 20)".
Grid Hardening	Grid hardening point/line	Updated field length for "FieldNotes" (string, 1000) to "FieldNotes (string, 8000)".
Vegetation Management Projects	Vegetation management project line, point, and polygon	Added field "DescriptionOfWorkComment (string, 100)".
Vegetation Management Projects	Vegetation management project line, point, and polygon	Added field "SecondaryDescriptionOfWork (string, 100)".
Vegetation Management Projects	Vegetation management project line, point, and polygon	Added field "FieldNotes (string, 8000)".
Vegetation Management Projects	Vegetation management project line, point, and polygon	Updated field length for "SlashManagement (string,20)" to "SlashManagement (string, 50)".
Vegetation Management Projects	Vegetation management project line, point, and polygon	Updated field length for "SlashManagementComments(string, 30)" to "SlashManagementComments(string, 100)".

Feature Dataset	Feature Class(es)	Change
Vegetation Management Projects	Vegetation management project line, point, and polygon	Updated field length for “WoodDestination (string, 20)” to “WoodDestination(string, 50)”.
Vegetation Management Projects	Vegetation management project line, point, and polygon	Updated field length for “WoodDestinationComment (string, 60)” to “WoodDestinationComment(string, 100)”.
