Good morning Anona and the governing Board,

I hope you are doing well.

We would like to submit a response of NO CONTEST on this matter. We have a written response below.

For the first violation Code 4216.2(b)

We would like to inform the board that we have implanted a company policy to call dig alert (our regional notification center of intent to excavate). And we will not have this issue going forward. This was a lapse in our judgement as licensed contractors and sincerely apologies for our failure on this matter.

For the second violation Code 4216.4(c)(1)

This was ignorance on our part. We were not aware of needing to call 911 emergency services upon a discover of damage on volatile utilities. We did notify the utility company immediately upon damage. We are aware of this code and will do so going forward.

We would like to request leniency in our penalties for failure to comply to the above mentioned codes. We have made the necessary changes within the company to ensure it will not happen going forward.

Thank you!

Mo,

Yes, you can email your written response to this email address. Your written response will be

provided to the Board even with selecting the no contest response option.

Thank you!

Anona Bonner

Hello,

I hope you are doing well.

I have received your notice of probable violation, I am needing to respond to this document. I have a couple of questions.

1. Can I respond via email here? Or would this have to be via mail only?
2. In the event of no contest response, can we provide a letter explaining ourselves as to why certain violations may have occurred.

Thank you!

Respectfully,

Mo Solomon
